

Case Statistics on Approvals of Concerted Action

Chinese Taipei

To prevent concerted action conducted by enterprises in the same line of business from impeding the market function and jeopardizing consumers' interests, the Fair Trade Act specifically prohibits horizontally concerted actions which damage the market function in such aspects as production, merchandise trade, and servicing demand and supply. However, 8 types of concerted action listed in Article 15 of the FTA, considered advantageous to the economy and in the interests of the public, can be exempted from the prohibition provided that prior-approval is obtained from the FTC.
